## Sooo Smart!

The **PowerPro Gen 2 Smart Motor** is intelligent, programmable and able to adjust the frequency and voltage supply to alter the speed and torque of the motor.

**PowerPro Gen 2 Smart Motor** combines the power of Shopsmith's famous multi-purpose tools with the convenience of an easy push button touch screen – no more guessing or manual dialing. **It is just like what you have come to count on with Your cell phones, computers or other touch screen devices.**

**2X** POWER  
TORQUE  
SPEED

**PowerPro Generation 2 Touch Screen** is loaded with new technologies that make Your projects nearly effortless. Plus, the **PowerPro Generation 2 Touch Screen** carries forward all the benefits from our original PowerPro. The **PowerPro Generation 2 Touch Screen** not only enhances Shopsmith Multi-purpose Equipment, it also enhances the performance of every Shopsmith Accessory You own.

## ADD TOUCH SCREEN CAPABILITIES TO YOUR ORIGINAL POWERPRO!

**PowerPro Gen 2 Touch Screen** will take your woodworking experience to the next level by using the "Quick Start" screen to ramp up the exact speed You want for every project. You will have the choice of eight pre-set speeds, and new forward and reverse buttons. Controls are easier to read. And there are built in diagnostics to troubleshoot required adjustments. *You'll Love It!*

# EXPERIENCE THE POWER OF SHOPSMITH POWERFUL PRODUCTS!

**The Shopsmith DC-6000 Dust Collector** is the Strong Silent Type You're Sure to Love. Count on the DC-6000 to allow you to enjoy virtually dust-free woodworking. It was engineered as a compact, efficient way to suck the wood dust and shavings out of your running Shopsmith machines before they mess up your shop, equipment, clothes, and home. Then, when you've finished working, you can turn it into an air-cleaning machine by simply disconnecting the hoses, opening all three of its inlets and turning it on. The DC-6000 removes any lingering airborne particles.

556700 **Shopsmith DC-6000 1-1/2 HP Dust Collection System ... \$879.00**

## LEARN MORE NOW!

Use Your Phone to Capture the QR Code or visit [Shopsmith.com/DustCollector](http://Shopsmith.com/DustCollector)

## The Shopsmith Strip Sander

This Versatile, Compact Machine Works Equally Well With All Types and Shapes of Materials. You will save countless hours of tedious hand work on a variety of woodworking tasks.

### Use It To:

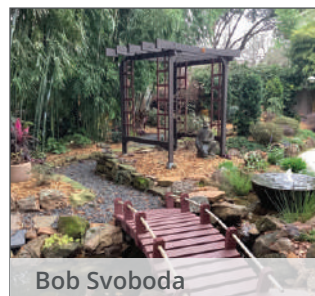

- Smooth the external edges of small craft or miniature projects
- Sand or grind intricate internal cut-outs on projects
- Grind metal objects or shape parts made of plastic, bone, etc
- Sharpen chisels, knives, scissors, metal snips, garden tools
- Put a keen edge on bevel-edged or turning chisels

555309 **Shopsmith Strip Sander ... \$479.00**

The Shopsmith Double Tilt  
Turns Your **MARK V** into an  
Under-Table Router, Shaper  
and Drum Sander – Just Like  
the **MARK 7**!

Many **MARK** Owners prefer the more conventional, under-table approach to routing and shaping. One reason is that with under-table operation, the workpiece is positioned between your hands and the bit or cutter, providing superior protection and safety. Another important reason comes into play when you're cutting or shaping an interior cut-out area of a workpiece. With the over-table method, if you need to remove the workpiece for an occasional inspection during operation. As a result, you'll then also have to re-set your depth-of-cut each time you return to your task. With an under-table set-up, these re-setting operations aren't necessary.

### Massive, 35-Pound Universal Lathe Tool Rest Will Do More to Improve Your Lathe Turning Results!

#### Easy To Attach and Easier To Use!

Shopsmith Universal Lathe Tool Rest is the most stable, most versatile lathe tool rest you'll find anywhere! Its unique triple-jointed design lets you swing the arm and support in any direction to position your tool rest deep within the deepest bowls, vases or goblets - even around the back side of large diameter faceplate or chuck-mounted turnings.

No more annoying vibrations, chatter or tool rest flexing. Whether you're turning with a faceplate, chuck or between centers, the added mass and adjustment flexibility of this system will make a big difference in your turning results.

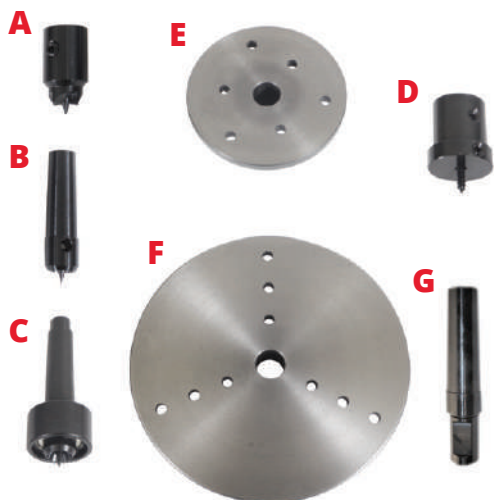

#### LEARN MORE NOW!

Use Your Phone to Capture the QR Code or visit [Shopsmith.com/UniversalToolRest](https://Shopsmith.com/UniversalToolRest)

555811 **Universal Lathe Tool Rest System ... \$319.00**

### Must-Have Accessories for Lathe Turning Projects

- A. 505715 Lathe Drive Center .... \$29.99**
- B. 505716 Lathe Cup Center .... \$22.99**
- C. 505602 Tailstock Live Center .... \$41.99**
- D. 505601 Lathe Screw Center .... \$27.03**
- E. 505590 3-3/4" Lathe Faceplate .... \$36.24**
- F. 505591 6" Lathe Faceplate .... \$46.96**
- G. 505603 Tailstock Chuck Arbor .... \$22.86**

- A. Drive Center** grips the left end of your spindle blank
- B. Cup Center** slips into the tailstock (right) end of your Shopsmith. We recommend that you apply a lubricant such as paste wax when using the Cup Center
- C. Live Center** features precision ball bearings for friction-free tip rotation without the need for lubricants. It reduces noise, runs more smoothly, won't loosen its grip on your workpiece (as cup centers often do) or burn workpiece ends
- D. Screw Center** is used for turning small workpieces from 1" to 5" long without using a tailstock center
- E. 3-3/4" Faceplate** is made of cast iron, precision machined and then balanced for smooth, wobble-free running. Use it for turning small diameter bowls, vases or similar objects. The inner 1-1/4" dia. mounting holes will grip workpieces down to 2-3/8" diameter
- F. 6" Faceplate** offers the same product specifications as detailed on the 3-3/4" Faceplate, plus allows you the ability to turn larger products such as bowls or trays
- G. Tailstock Chuck Arbor** Tailstock Chuck Arbor allows for easy and accurate position holes in the end of work pieces including center drilling of pen stock

## Want a Quick Solution for Proper Three-Grit Drum Sanding Without Switching Between Multiple Drums! Try Our Complete Multi-Sand Starter Package?

### Sharp Curves Ahead? Smooth out Sharp Curves Quickly & Easily with Shopsmith 3" and 6" Sanding Drums

2-5/16" Shopsmith Drum Sander is either 3" or 6" long with a rubber expansive drum that can be attached quickly to the spindle on Your **MARK**, your Shopsmith Power Station or the auxiliary spindle on your Shopsmith Belt Sander. Just slip the sleeve on, tighten the expansion bolt and go to work.

6" long x 2-5/16" Shopsmith Drum Sander does everything our 3" long model does and more! Use it to sand the inside or outside curves on workpieces up to 6" thick or to pad sand a stack of several 1/2" or 3/4" thick workpieces to the identical shape, all at once! Plus, the 6" long Sanding Drum provides more sanding surface area.

505552 Shopsmith 2-5/16" x 3" Long Sanding Drum ... \$39.95

555948 Shopsmith 2-5/16" x 6" Long Sanding Drum ... \$64.95

# SHOP HELPFUL ACCESSORIES!

## Get Smoother Cuts with Purpose Specific Blades!

- Unlike many blades that take a kerf of 1/8" or more, these blades deliver a narrower (Approx.) 3/32" kerf, resulting in a faster, more efficient cut that requires less horsepower than many competitive blades.
- Unique expansion slots minimize vibrations, reduce noise & help provide a cleaner cut.

**A. 10" Carbide-Tipped Combination Blade** This 50-tooth blade delivers super-smooth cuts when crosscutting or ripping. Its 40 alternate bevel ground crosscutting teeth slice through the wood fibers fast and are separated by shallow gullets for optimal crosscutting efficiency. The 10 flat top ground ripping teeth chisel through the stock rapidly and are separated by long, deep gullets to eliminate the large amount of waste that's produced. **Combination blades are great if your project requires back and forth ripping and crosscutting.**

555958 **50 Tooth 10" Carbide-Tipped Combination Saw Blade .... \$84.70**

**B. 10" Carbide-Tipped Rip Blade** This 24-tooth blade is the best choice for continuous ripping. Its alternate bevel ground teeth combined with square chisel teeth cut quickly, while its deeper gullets are well-equipped to handle the faster feed rates and large amount of waste that it produces.

555959 **24 Tooth 10" Carbide-Tipped Ripping Saw Blade .... \$74.99**

**C. 10" Carbide-Tipped Crosscut Blade** This 60-tooth blade is the ideal choice for continuous crosscutting. Its alternate bevel ground teeth combined with flat ground teeth are designed to quickly sever the wood fibers and deliver a super-smooth cut on hardwoods or softwoods. **The Cross-cut Blade also makes a Great Plywood Blade!**

555960 **60 Tooth 10" Carbide-Tipped Crosscutting Saw Blade .... \$94.57**

### Shopsmith NOVA G3 Lathe Chuck Provides a Solid Grip on Stock

**Manufactured Exclusively for Shopsmith.**

Precision machined to the closest tolerances from the highest quality steels. This premier quality, self-centering scrolling chuck allows you to attach and detach your turnings quick and easy.

#### Package Includes:

- **Exclusive Shopsmith Insert Adapter (a \$24.95 Value!)** features a wide mounting face to eliminate wobble and is designed specifically for secure attachment against the tapered flat of the Shopsmith spindle.
- **Pin Jaw Set (a \$74.99 Value!)** enhances Your turning capabilities! Designed to expand into a pre-bore hold in your workpiece, it's the ideal choice for turning bowls with freeform edges. You can also use the long jaws to get a powerful, more stable external (contraction) grip when turning miniature or smaller diameter spindles or for those times when you need to use an internal (expansion ) grip on smaller sized bowls, turned boxes and similar projects.

**\$99.94 VALUE FREE!**

**Includes SafeLock Woodworm Screw** The 1-7/8" long by 1/2" dia. screw offers a deep thread that's machined all the way to the end of the screw, allowing it to lead easily into your pilot.

### Shopsmith Premium Bandsaw Blades Feature Less Heat Build-Up For Longer Blade Life

Shopsmith blades are made from premium-quality silicon carbon steel with precision milled teeth for added sharpness and consistency of cut. These premium blades are induction heat-treated to ensure an even hardness and feature a special tooth set and rake angle to provide more aggressive cutting with less pressure. This reduces heat build-up, prolonging blade life substantially.

**Lifetime Guarantee On Weld Integrity\*** - If a Shopsmith blade breaks at the weld, we'll replace it - **Free!**
